A website that opens fast on a phone, in your customers' language.

A fast, phone-first website in the languages your customers read, with a WhatsApp button and a map.

WHAT YOU GET

- Up to five pages: home, services and prices, about, gallery, contact
- A WhatsApp button and a map
- English, with Hindi or Marathi if you want them
- A domain registered in your name
- Hosting included
- Small edits by WhatsApp on the care plan

PRICE

Website	**₹9,999** one-time
Care plan, optional	**₹499** a month
Or with Get Found	**₹4,999** setup, then ₹799 a month

Your domain name is charged at cost. Taxes extra where applicable.

HOW IT WORKS

1. You send photos, services and prices
2. We build it from a template made for your trade
3. You approve it, and it goes live on your own domain

WHAT WE NEED FROM YOU

- Your logo, if you have one
- Photos
- Services and prices
- Which languages you want

WHAT IS PROVEN, AND WHAT IS NOT

No study shows that a website alone brings customers. It is the place your Google listing and your booking link lead to, and customers do ask whether you have one. The samples put all five parts on one scrolling page so you can see them quickly. On your own site each can be its own page.

YOUR DATA

The domain is registered in your name and leaves with you.
